## **Chairman's Message**

**Conart Engineers Limited** is an ISO-9001 certified company, and has successfully provided more than four decades (48 years) of services in the field of Construction Engineering, and Project Management. We oversee projects ranging from small interior renovations to some of the most recognizable architectural, industrial and commercial landmarks.

Our diverse portfolio encompasses Residential, Heavy Industrial, Pharmaceutical, Transportation, Commercial, and government services. We bring an unmatched combination of knowledge, skill, experience, and customer commitment to every job.

Our customers and partners see us as integral to their success. This can be seen from our repeated customer base.

Our people are proud to work with us. The employee retention period at Conart far exceeds average industry standards.

At **Conart**, safety is a value, not a priority that changes with time. Our zero/zero safety culture: zero tolerance for violations and zero incidents on jobsites, is ingrained in all of our employees, from field workers to senior management.

**Conart's** culture is grounded in integrity and respect. This means holding the highest standards of ethical business culture. Our reputation for adhering to these standards is one of our most valuable assets. In addition to conducting business in strict compliance with all applicable laws, rules and regulations, we hold our work up to the highest moral, ethical and professional standards, because doing what is fair and just never gets old.

On behalf of our people, I thank you for making us successful, and for having confidence in us in providing future opportunities to demonstrate our devotion to our principles.

**Jitendra Sura**  
**Chairman & MD**
